

DUCT TIGHTENER

Makes 1-person duct installation easier and faster!

- Simple to use - just one hand needed!
- Quickly join duct and install drive cleats
- Speeds up installation of sheet metal ductwork

Time Saving

The V-notch quickly aligns duct for drive cleat installation.

Compact

Easy to carry in your toolbelt so it's always within reach.

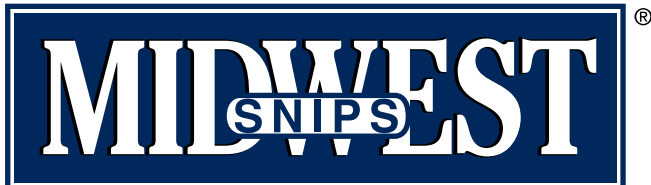

Long Lasting

Heavy duty 16-gauge steel construction for durability.

Rust Resistant

Our Duct Tightener is coated with a Zinc finish.

Patent-Pending

DUCT TIGHTENER

An easier way to join metal duct work!

One Person Installation

Unique design makes it easy for one-person to connect duct runs.

Faster Installs

Just lightly tap the duct tightener to align and pull the metal duct together, and slide on the cleat.

Convenient

Only 5" long, so it can conveniently fit in a tool-belt, keeping it always at hand.
